

LBNC Meeting July 31, August 1, 2 2019 -Fermilab – Charge

Charge:

The LBNC will hear about the progress towards provision of material suitable to support the approval of TDRs for initial components fabrication of the DUNE experiment and to support ongoing development of components for the longer term DUNE program. The LBNC will prepare a Closeout Report followed by a Full Report. The latter will be a component of discussions between the Director and the RRB.
